Summary

Product Designer with 9+ years of experience, spanning from tech giants like Nielsen to startups and personal ventures — specializing in desktop, mobile, and web platforms. Currently researching and deeply learning about AI in design tools, fintech/crypto and design systems.

Corporate Experience

Lead **Visual Solutions Engineer**

Discovery Education • Sep '24 – Jan '26 / Remote / External Contract

Education Technology (Internal teams)

Lead Designer and prototyper for AI tools and Search.

- Worked with engineers to make our 1 million+ assets findable for educators. When a teacher searched for `Sharks` results shifted from over 1,000 results, to 15 of our highest bets based off teachers grade, subject matter, and leveraging AI to make weighted keywords matrixes.
- Collaborated with Engineers to build and design a custom LLM GPT for interacting with our products. Now teachers could prompt `Make me a 30 minute lesson on ecology`, and receive back two 10 minute videos in our system and a worksheet with actionable questions pulled from the videos.

Lead **Product Designer**

Helios • Jan '24 – Aug '24 / Chicago

HXM (HR, Human Capital Management, Fintech)

Lead design in automated human resource technology with world class UX across 125+ countries. Lead AI, Search, Onboarding, Payment and Data design teams.

Lead **Product Designer**

Bonbon • Apr '23 – Dec '23 / Remote

Advertising Tech, SSO Tech

- Hired and led a fast growing design team of 2 designers, overseeing content design, user research, visual design, and user experience for our desktop and web apps.
- Collaborated with Copywriter to build Machine Learning (ML) tools to programmatically optimize copy for our clients based off A/B testing results, maximizing our user engagement.
- Presented and defined a northstar, multi-phase, Go To Market (GTM) strategy to our Board of Directors to redefine and pivot our product to a new customer base.
- Exceeded core sign-up rate KPI of product by 270%. Lowered average Cost of Customer Acquisition from \$4.50 to ~\$0.15.

Senior **Product Designer**

Rocket Travel (BKNG) • Sep '21 – Apr '23 / Chicago, IL

Travel Tech

- Designed for a suite of 4 different enterprise products that enabled the booking of Flights, Hotels, Activities, and also the Payment portals across mobile, desktop, web, landing pages, and marketing.
- Designed products for consideration for Whitelabel B2B2C and Enterprise B2C. Worked with Clients like CitiBank, T-mobile, American Airlines. Tracked additional revenue gain through A/B splits (of increased design and product management deliveries).
- Maintained existing Design System. Ran audit across organization when we decided to rebrand and join our sister company so we could integrate with their Design system. Proactively pitched and collaborated with both teams to ask management for funding to make our Design system more accessible.
- Defined northstar vision of a new AI Product to help customers manage and refine their bookings.
- Promoted from **Product Designer** to **Senior Product Designer**.

Product Designer

Ascent Global Logistics • Sep '20 – Sep '21 / Remote

Logistics Tech

- Built an inaugural design system. Collaborated with Marketing to rebrand the company and integrate into all of our products.
- Scaled Design team from 1 to 4.
- Lead design for International shipping, On-demand Shipping (Less than 24 hour delivery), Payments, and Developer Systems/APIs.
- Worked directly with client list including: Tesla, Ford, Evergreen, Fed-ex, Amazon.
- Built out first UX research practice, testing wireframes, accessibility, competitive analysis, usability, and blue-ocean experimentation. Leveraged Notion to build out Research Repository.

Senior UX Designer

TrueData • Jan '19 – Apr '20 / Chicago, IL

Advertising Tech, DGPR, CCPA, Compliance Tech

- Fifth hire, first designer. Collaborated heavily with product management, Data-engineering, CTO, and CPO to create our first products.
- Identified pain points for companies to comply with CCPA and GDPR requirements, leading to a Mobile SDK and web platform to allow customers to safely and securely manage their customers data while complying with multiple international laws and regulations.
- Strategically identified Analytics/Data-visualization areas of interest and improved our platform to work with high actionability and universal design principles.
- Designed platform for marketers to analyze their customer audience, target audience, and use machine learning to find specific niches.
- Managed team of 2 design contractors. Performed visual QA with our front-end engineering team.

User Experience Designer

Nielsen • Sep '17 – Jan '19 / Chicago, IL

Large Data Retrieval, API schemas, Data storage

- Designed in Axure and sketch, learned what a design system was, contributed to design system with federated team.
- Designed a developer API portal, and a WYSIWYG editor for customers to build out complex data work-flows that allowed users to search through terabytes data across many data-lakes.

UX Contractor

Dave Ramsey Solutions • Oct '16 – Dec '16 / Chicago, IL

- Created wireframes and prototype(s) for user interviews and concept validation in both web and mobile designs focused on converting visitors on a landing page to meeting with Fin-Tech representatives via improved onboarding flows.
-

Entrepreneurship

Design Advisor

Bonbon • Sep '22 – Present / Chicago, IL

- Built out fundraising prototypes, and presentations bringing in \$1.5Million in pre-seed funding. Building out incentivized enterprise Whitelabel SSO for publishers. Successfully raised average revenue per customer by 27%.

Design Advisor

Move AI • Feb '21 – Present (On indefinite hold) / Chicago, IL

- Advised a Physical therapy startup using Augmented Reality(AR) to help patients get PT remotely. Built out northstar design strategy, initial prototypes and fundraising presentations. Used hardware integrated with AR to alert users to positioning and form adjustments.
-

Education

Bachelors of Fine Arts - Painting & Illustration

University of Georgia • Aug '09 – Dec '12 /

- Graduated Early with multiple scholarships.
-
